

WEEKLY UPDATE – 2021

from ECPN Board Chairman Doug Sanders

Wednesday, December 8

This week has been a flurry of NDAs executed and exchanged among multiple parties that have either expressed interest in purchasing ECPN products or are considering submitting business proposals to us.

These NDAs both protect us and allow all parties to begin the due diligence that will help us move forward. I have had several calls and Zoom meetings this past week and expect we'll be scheduling mine-site visits with one or more of the interested parties before the end of year.

Staying focused — even as this year comes to a close — with the goal of hitting the ground running in 2022. Lots to accomplish between now and then, but I continue to be optimistic.

Doug

Forward-Looking Safe Harbor Statement:

The statements included in this business update concerning predictions of economic performance and management's plans and objectives constitute forward-looking statements made pursuant to the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. Forward-looking statements are statements that are not historical facts. Words such as "expect(s)," "feel(s)," "believe(s)," "will," "may," "anticipate(s)" and similar expressions are intended to identify forward-looking statements. These statements include, but are not limited to, statements regarding the expected completion, timing and results of metallurgical testing, interpretation of drill results, the geology, grade and continuity of mineral deposits, results of initial feasibility, pre-feasibility and feasibility studies and expectations with respect to the engaging in strategic transactions. All of such statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond the control of the Company, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. Specifically, there can be no assurance regarding the timing and terms of any transaction involving the Company or its El Capitan property, or that such a transaction will be completed at all. In addition, there can be no assurance that periodic updates to the Company's geological technical reports will support the Company's prior claims regarding the metallurgical value and make-up of the ore on the New Mexico property. Additional risks and uncertainties affecting the Company include, but are not limited to, the possibility that future exploration, development, testing or mining results will not be consistent with past results and/or the Company's expectations; discrepancies between different types of testing methods, some or all of which may not be industry standard; the ability to mine precious and other minerals on a cost effective basis; the Company's ability to successfully complete contracts for the sale of its products; fluctuations in world market prices for the Company's products; the Company's ability to obtain and maintain regulatory approvals; the Company's ability to obtain financing for continued operations and/or the commencement of mining activities on satisfactory terms; the Company's ability to enter into and meet all the conditions to consummate contracts to sell its mining properties that it chooses to list for sale; and other risks and uncertainties described in the Company's filings from time to time with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof, and we do not undertake any obligation to revise and disseminate forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of or non-occurrence of any events
